

CareHealth Insurance - Health Policy Document

1. Introduction

This document describes the terms, benefits, and claim procedures of the CareHealth Individual Health Insurance Policy. Please read it carefully and keep it for your records. This policy covers hospitalization expenses, day-care procedures, and pre- and post-hospitalization costs subject to the limits described in the following sections.

2. Policy Period

The policy is valid for one year from the date of issue and must be renewed annually to maintain continuous coverage. A grace period of 30 days is allowed for renewal without loss of continuity benefits.

3. Pre-Authorization

Pre-authorization is mandatory for all planned hospitalizations. The request must be submitted to the insurer at least 48 hours before admission. For emergency hospitalizations, the insurer must be notified within 24 hours of admission. Failure to obtain pre-authorization may result in reduced reimbursement.

4. Room Rent Limits

The daily room rent is covered up to 1% of the sum insured per day for a standard private room. Intensive Care Unit (ICU) charges are covered up to 2% of the sum insured per day. If the insured chooses a room with a higher rent, the proportionate deduction clause will apply to all associated charges.

5. Claim Submission Deadline

All reimbursement claims must be submitted within 30 days of the date of discharge from the hospital. Claims submitted after this period may be rejected unless a valid reason for the delay is provided in writing and approved by the claims officer.

6. Documents Required for Reimbursement

The following documents are required to process a reimbursement claim:

- Duly filled and signed claim form
- Original hospital discharge summary
- Original itemized hospital bill and payment receipts
- All diagnostic and laboratory reports
- Doctor's prescriptions and consultation notes
- A copy of the patient's identity and policy documents

7. Exclusions

This policy does not cover the following: cosmetic or aesthetic treatments, dental treatment unless arising from an accident, expenses for spectacles and contact lenses, and treatment taken outside the geographical scope of the policy.

8. Waiting Periods

A waiting period of 30 days applies to all illnesses except those arising from an accident. Certain specified diseases are subject to a waiting period of two years from the policy start date.

9. Contact

For claim assistance, contact the CareHealth helpline at 1800-000-000 or email claims@carehealth.example. Our support team is available Monday to Saturday, 9 AM to 6 PM.
